COULD YOU HELP THE NEXT GENERATION OF TRAINEES?

Vacancies for Regional Specialty Advisors and Deputies

The role of Regional Specialty Advisor (RSA) (and Deputy RSA) is very important and crucial to the specialty. There have been immense changes in medical training over the past few years and therefore the Faculty needs to have key representatives in all parts of the United Kingdom. The role of the RSA is varied but currently a critical feature is to represent occupational medicine within deaneries. This is an opportunity for you to ensure that best standards of training are delivered to trainees and to contribute actively to training.

The role is not particularly onerous in terms of time, but you would be expected to attend Deanery meetings on training.

Ian Aston, Director of Training.

Current Vacancies

We would be grateful if members would consider offering their services for the following posts:
